

Email sent directly to our LCS principal, Ron Hittle:

Hi Mr. Hittle,

I just wanted to take a moment to say thank you. Today Clairey really smashed her hand in the car door, she was screaming, there was blood, the boys were in tears. It was terrifying. I carried her inside and while comforting her I was aware that I needed to get back out to the boys because I knew they were scared.....When I went out front I found them huddling in the driveway over Rowan's Bible and they were praying together for Clairey. Once I got them inside and upstairs I started getting messages from them...Bible verses about strength and guidance for me, and for Claire. It has struck me that this love and comfort they have for and from God is owed to you and your staff. As you know, we don't make it to church. Their faith - which is the greatest gift I could wish upon them, is wholly gifted from you and the environment you are helping to raise them in. So thank you, I see what you and your teams have done for them and for us, I will never forget it and I will be forever thankful.
